indication that Claims 2-5 and 9-17 are objected to but would be allowable if rewritten in independent form. Claims 3, 10, 11, 14 and 16 have been rewritten as suggested as new Claims 29-33.

By this amendment, Claims 1, 4-5, 9, 14-18, 23, 25 and 28 are amended to address the informalities noted in section 3 of the Office Action. In addition, Claims 8 and 9 are voluntarily amended to obviate a potential antecedent basis rejection with regard to "the oscillating processor signal." Claim 1 is voluntarily amended to distinguish it from the cited reference. Claim 6 has been canceled since the subject matter of this claim has been incorporated into Claim 1. With the cancellation of Claim 6, Claims 7 and 8 are amended to properly depend from Claim 1. New Claims 29-33 are added. Accordingly, Claims 1-5 and 7-33 are pending in the case. Reconsideration and allowance of all pending claims not currently allowed is respectfully requested in light of the following amendments and remarks.
